PROFILE

Full-stack developer trained at Le Wagon. My self-directed work spans web interfaces, APIs, data processing and MCP integrations. I use coding agents to explore solutions and review the resulting behaviour through source data, automated tests and browser checks.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Ruby, SQL, HTML, CSS.

Applications: React, Next.js, Ruby on Rails, FastAPI, Node.js, Hotwire.

Data and integration: PostgreSQL, SQLite, REST APIs, WebSockets, MCP, JSON/JSONL.

Engineering: Git, Docker, automated tests, debugging, documentation, AI-assisted development.

EXPERIENCE

Independent software development | Self-directed work | 2026 - present

Developed web interfaces, backend services and read-only MCP tools for job research, market data and dispatch decisions. Checked input handling, data integrity and failure cases with automated tests and browser review.

De Bommel / DHL | Webshop order processing | 2025

Prepared online customer orders for dispatch, following warehouse and shipping procedures.

Home Fundraiser Ltd, London | Team Leader & Planner | 2017

Coordinated daily team activities, planning and communication in a target-driven field operation.

Transjunior Logistics | Inbound & Outbound Logistics | Earlier experience

Supported inbound and outbound operations, goods movement and organisation.
