FULL-STACK DEVELOPER

Full-stack developer trained at Le Wagon, with self-directed projects spanning React and TypeScript interfaces, Python and FastAPI services, Ruby on Rails, SQL and MCP integrations. I use coding agents to explore implementation paths, then review behaviour with source data, automated tests and browser checks.

EXPERIENCE

Independent software development

Self-directed work | 2026 - present

Built React and TypeScript interfaces, Python and FastAPI services, Node.js workflows and read-only MCP tools across job-research, market-data and operations projects. Checked input handling, data integrity and failure cases with source review, automated tests and browser checks.
