LinkedIn: linkedin.com/in/jordi-lluis-14228242a

I build web interfaces and APIs, then test how they fail: React and TypeScript front ends, Python services, containerised builds and continuous integration. I like checking assumptions and turning complex information into useful tools.

SKILLS

Languages: Python, JavaScript, TypeScript, Ruby, SQL, HTML, CSS.

Applications: React, Next.js, Ruby on Rails, FastAPI, Node.js, Hotwire.

Data and integration: PostgreSQL, SQLite, REST APIs, WebSockets, MCP, JSON/JSONL.

Engineering: Git, Docker, GitHub Actions, automated tests, debugging, AI-assisted development.

Financial markets: Futures, order-flow analysis, technical and fundamental analysis, trade reconciliation.

SELECTED PROJECTS

Pattern Forge

Market charts with live quotes, a validated candle API and historical replay without future-data leakage. 32 automated tests; the Docker image is built and smoke-tested in continuous integration.

Relay

Job-requirement reviews linked to original quotations. A web interface and agent tools share one evidence service, covered by 48 backend tests for input validation and protocol behaviour.

Polybow

Trading-experiment postmortem with reproducible ledger calculations and archived timings. Distinguishes order acknowledgements from fills and documents the losses.

EXPERIENCE

De Bommel | Webshop order processing / DHL dispatch | 2025

Used company software to track incoming and outgoing furniture orders, shipment and box quantities. Scheduled truck arrivals by phone, prepared inbound/outbound shipment information and DHL dispatches, and checked and signed transport documents.

IAS Handling, Barcelona-El Prat | Air cargo operations coordination | 2019

Coordinated incoming and outgoing cargo orders and checked the customs documentation and permits needed for shipment handling.

Transjunior Logistics | Logistics administration support | 2018

Tracked incoming and outgoing orders and supported office coordination of truck movements.

Home Fundraiser Ltd, London | Route Planner | 2016-2017

Planned routes and daily area assignments for field fundraising teams.

Amplify Trading | Futures trading | 2016

Traded futures using order-flow analysis on an Amplify live account after completing the training programme.

EDUCATION & TRAINING

Le Wagon, Barcelona | Full-stack development | 2023

Team project: City Gardens, Rails/PostgreSQL community gardens app. API labs: seven browser apps consuming public REST APIs.

Amplify Trading | Level 6 Diploma in Applied Finance

Distinction | June 2016.

Further learning | Anthropic/Claude and OpenAI online courses.

Instituto de Sonido de Caracas | Sound Engineering | 2015-2016

LANGUAGES

Spanish - Native | English - C2 | Catalan - B1 | Dutch - A1
