Portfolio: coder058.github.io/profile | GitHub: github.com/coder058

I build research workflows with cited outputs and human review. My work connects source retrieval, bounded model responses and checks for missing or unsupported evidence. I publish reproducible evaluations and contributed a merged retrieval-library fix.

SKILLS

Languages: Python, SQL, TypeScript, JavaScript.

Applied AI: Evidence retrieval, citation checks, evaluation, MCP tools, human-reviewed drafts.

Data and integration: PostgreSQL, SQLite, REST APIs, WebSockets, JSON/JSONL.

Applications: FastAPI, React, Next.js; Ruby on Rails (project work).

Engineering: Git, Docker, GitHub Actions, automated tests, debugging and documentation.

INDEPENDENT PROJECTS & OPEN SOURCE

Info Desk: Built a Python research tool that connects AI drafts to source passages and requires human approval before saving a write. Tested citation checks and source retrieval. Live research runs locally; the public case is recorded.

Pattern Forge: Built an interactive market chart with candle-pattern detection and historical replay. Added a Python/PostgreSQL ingestion path and tests that prevent later prices from changing an earlier reading.

Polybow - independent project, 2026: Operated a Python trading bot on AWS Lightsail; compared order and account records to investigate mismatches and document failures. Live trading stopped; not evidence of durable profitability.

Haystack #12635 - merged: Fixed a check that incorrectly rejected valid zero values in document metadata; added a regression test and release note. Accepted by the maintainers.

EXPERIENCE

De Bommel | E-commerce dispatch · Ceyenne WMS and DHL | 2025-2026

- Handled 700+ furniture orders a day in the WMS, booked inbound trucks and prepared DHL dispatch. Used Python and SQL to check order lines against dispatched goods.

IAS Handling | Inbound Manager Assistant · Barcelona-El Prat Airport | 2019-2023

- Supported inbound cargo handling at a bonded warehouse, checking customs documentation and shipment records.

Transjunior Logistics | Team Leader · warehouse operations · WMS | 2018

- Led warehouse shifts: order processing, rotating stock and inventory in the WMS.

Home Fundraiser Ltd, London | Planner | 2016-2017

- Planned daily routes and field-team assignments with the team leader.

Amplify Trading | Futures trading · Gold and Dow Jones | 2016

- Traded Gold and Dow Jones futures on an Amplify live account, reading order flow against technical and fundamental views.

EDUCATION & TRAINING

Le Wagon, Barcelona | Full-stack development | 2023

Ruby, Rails, JavaScript, PostgreSQL, HTML/CSS and Git.

Amplify Trading | Level 6 Diploma in Applied Finance

Distinction | June 2016. Futures, markets and applied finance.
